

2019 Essentials in Piezosurgery® Course

Presented by:
Dr. Ralph Wilson, DDS, MS Diplomate

Friday, March 22, 2019, UNLV Dental School, 1700 W. Charleston Blvd. Room B-2, Las Vegas, NV 89102

Dr. Ralph Wilson graduated from the Ohio State University with a Bachelor of Science in psychology (with distinction) and a Doctor of Dental Science (cum-laude). He was also inducted into the Omicron Kappa Epsilon Honor Society. He continued his education by specializing in periodontics, later earning a Certificate in Periodontology and a Master of Science.

Dr. Wilson practices in Arizona, where he is involved in research using lasers to treat periodontal disease. Additionally, he helps coordinate the analysis of less invasive ways to perform sinus lifts.

The Essentials in Piezosurgery® course is designed for new users of the technology, those who purchased a device in years past and would like a refresher, and those who have not invested in the technology but are interested in learning more.

Combining case presentations, lecture, and hands-on opportunities throughout the day, attendees will have the opportunity to discover the many surgical applications that are enhanced and perfected in utilizing our patented technology. Moreover, the attendees will have the opportunity to ask questions that will be answered by a clinician who has been successful utilizing Piezosurgery® in their own practice.

This is a unique experience, as attendees from all experience levels can learn, grow, and enhance what they already know about the techniques and challenges solved with Piezosurgery®.

Six (6) hours of CE credit will be given.

Learning Objectives

- Attendees will learn how Piezosurgery® by Mectron was researched, developed, and introduced to market as the FIRST in piezoelectric bone cutting.
- Learn why Piezosurgery® is a better alternative than traditional instrumentation for osseous surgeries, as well as how your treatment outcomes are improved by use of this device.
- Understand the many applications where Piezosurgery® may be utilized in providing a

better patient experience, as well as reducing the stress on the practitioner when working closely to delicate structures.

- Learn the protocols and suggested insert tips for the applications you may not be familiar with.
- Enjoy a learning environment where YOU are the most important person in the room. The Piezosurgery® team is there to ensure that you are taken care of and that you enjoy this day of learning as comfortably as possible.

Course Schedule:

- 8:00am-10:00am ----- Lecture
- 10:00am-10:15am ----- Break
- 10:15am-12:00pm ----- Lecture
- 12:00pm-1:00pm ----- Lunch
- 1:00pm-2:00pm ----- Lecture
- 2:00pm-5:00pm ----- Hands-On

Tuition:

- Complimentary
(for Piezosurgery® Inc. customers)
- \$295 per person
(for non-Piezosurgery® Inc. customers)

Seating is limited.
