INFECTION CONTROL FOR THE DENTAL OFFICE
February 22, 2020 & April 18, 2020
(Both dates are Saturdays)
8:00 am – 12:00 pm (Registration 7:30 am)

4 CEU
Continental breakfast included

SYNOPSIS:
This course is designed to provide the NSBDE required training for dentists and hygienists. This course has also been approved for 2 hours of continuing education credit by the CDA and complies with the California Code of Regulations 1005 – Minimum Standards for Infection Control.

Infection control guidelines as developed by the CDC will be addressed. Participants will review the scientific evidence about dental infection control issues and current CDC recommendations for minimizing the potential for disease transmission in the dental setting.

SPEAKER:
Raymond Rawson, DDS
Dr. Rawson received a DDS from Loma Linda University School of Dentistry, and his MA in physical anthropology from the University of Nevada Las Vegas. He became a Diplomate of ABFO in 1978. He maintains a private dental practice in Las Vegas. He is Visiting Professor for General Practice Residency and Infection Control Coordinator at UNLV School of Dental Medicine. Dr. Rawson is a Forensic Odontologist with Clark County Coroner’s Office in Las Vegas. Dr. Rawson is the Dental Director, Health Plan of Nevada/Sierra Health and Life, Quality Assurance and Utilization Review in Las Vegas. Dr. Rawson has received numerous research grants in a variety of health related topics. He lectures extensively as well as teaching specialized courses dealing with criminal justice and forensics. Dr. Rawson is also a former State Senator with the State of Nevada, serving from 1985-2001.

LEARNING OBJECTIVES:
At the end of this course, participants should be able to:
- Describe universal and standard precautions
- Identify and describe disease transmission and infectious hazards in the dental setting
- Discuss occupational exposures and prevention, post-exposure management and prophylaxis to blood borne pathogens
- Establish objectives, goals, and management of an infection control program in the dental setting
